

# CONTENTS

Introduction .....	5
Special features and application of this book .....	6
Authors .....	7

## Theory

Chapter <b>1</b> : Cities and transportation .....	12
Chapter <b>2</b> : Transportation and land use .....	22
Chapter <b>3</b> : Transportation and the environment .....	31
Chapter <b>4</b> : Traffic engineering .....	40
Chapter <b>5</b> : Intelligent Transport Systems .....	49
Chapter <b>6</b> : The image of automobile safety .....	61
Chapter <b>7</b> : Technologies for safety improvement .....	71
Chapter <b>8</b> : Traffic psychology .....	80
Chapter <b>9</b> : Traffic safety and medicine .....	89
Chapter <b>10</b> : Laws and policies pertaining to traffic safety .....	100
Chapter <b>11</b> : Sustainable growth—An economic perspective .....	116
Final thoughts: Resilient mobility society .....	125

## Practice

A land utilization framework and transportation system for declining population .....	132
Quality of mobility required for super-aged cities .....	136
Urban development from parking lots considering inner-city parking density .....	140
Practical optimal signal control emphasizing pedestrian road crossing realities .....	144
Significant reduction of cycle length via a two-stage crossing system .....	148
A study on the practical deployment and promotion of safe and ecological roundabouts .....	152
A study on the role and limitations of motorcycles as a means of urban transport in Southeast Asia .....	156
Practical application of a public involvement-type system for planning and evaluating road traffic safety measures .....	160
Identification of brain regions associated with the central and peripheral visual field and applications for improving traffic safety .....	164
An educational program for better control of emotions while driving .....	168
A study on safety measures considering the psychological behavior characteristics of cyclists, from adolescents to the elderly .....	172
Addressing issues associated with prehospital emergency transportation .....	176
Dissemination and promotion of screening for sleep disorders .....	180
Creating installation guidelines for tactile ground surface indicators (braille blocks) for the visually impaired .....	184
Ensuring urban public transportation mobility for people with intellectual disabilities .....	188
A study on the level of service for local public transport to secure basic daily life .....	192
Traffic safety and traffic enforcement .....	196
Interdisciplinary research on the criminal charge of dangerous driving causing death or serious injury .....	200
Smoothly promoting urban development for transportation through collaboration between government and local organizations .....	204
Realization of earthquake disaster crisis management and a society with safe and secure transportation ...	208
